# Our History

The Willoughby family has long been home to pioneering figures whose achievements shape the character of Birdsall House. Hugh Willoughby lost his life in 1553 while seeking the North East Passage, embodying the family's spirit of exploration. Francis Willoughby (1635–1672), a naturalist and early member of the Royal Society, catalogued hundreds of plant and animal species, anticipating Darwin's work by two centuries. Nesbit Willoughby (1777–1849), one of the boldest officers in British naval history, is even said to have inspired characters in the Hornblower novels. Their stories, alongside collections of art, antiques and furniture, form the rich heritage of the estate.

Birdsall House stands on the site of an ancient monastic settlement and has evolved through centuries of family stewardship by one family. Birdsall House was first built as a Tudor dwelling by the Sotheby family. A chance snowstorm in 1719 found Thomas Willoughby seeking shelter at Birdsall and subsequently marrying the heiress daughter Elizabeth. Together they transformed the house into a Georgian residence which later grew through additions ranging from 18th century State Rooms to Victorian work by Anthony Salvin. Having weathered the challenges of the post war era, Birdsall emerged as the family's principal home and remains so today. Under the stewardship of the Willoughby family the estate continues to thrive, welcoming guests for weddings, filming, country pursuits and more, ensuring that Birdsall's remarkable history remains a living, breathing story.

The gardens surrounding the house are very extensive and can cater for quintessentially English garden receptions or host magnificent marquees, as well as being the perfect backdrop for your photos.

# The Old Kitchens

The best parties always happen in the kitchen and Birdsall House takes that to heart. After the formalities in the elegant rooms upstairs, the celebration shifts up a gear as you and your guests head down to The Old Kitchens, the house's atmospheric, prohibition-style nightclub and bar hidden beneath the house.

This characterful warren of rooms offers something for everyone. Guests can wander to the cocktail bar, sink into comfortable sofas to catch up with friends, help themselves to grazing platters in The Pantry, or head straight to the dancefloor to shimmy the night away.

A striking contrast to the refined elegance above, The Old Kitchens were once the bustling working core of the estate. Today, they have been transformed into an opulent speakeasy, rich with velvet textures, moody lighting and intriguing secret spaces. The result is an immersive, intimate and high-energy setting - an unforgettable backdrop for the part of the day where the celebrations really begin.
